BY PARTNERING WITH DANONE NORTH AMERICA, YOU CAN HELP YOUR CUSTOMERS MAKE BETTER CHOICES FOR PEOPLE AND THE PLANET

HERE'S HOW DANONE NORTH AMERICA BRINGS OUR B CORP CERTIFICATION TO LIFE

- Our water partnerships have helped restore more than 7.8 billion gallons to freshwater ecosystems
- 100% of the electricity we use to produce our products at our manufacturing plants comes from renewable wind power, through the purchase of renewable energy certificates
- Since 2006, we've donated the equivalent of over 24 million meals through our partnership with Community Food Share
- We are committed to 100% reusable, recyclable and compostable packaging by 2025

OUR BRANDS ARE LEADING THE CHANGE

We are proud to directly source our dairy from farms that put animal welfare and safety at the forefront and certify to the Validus animal welfare standard

By sourcing UTZ-certified cocoa powder, we support sustainable farming and help improve the livelihoods of farmers. Additionally, we are committed to sourcing certified palm oil that does not contribute to deforestation

To support pollinators like bees and butterflies, we've planted 25 linear miles of native, naturally drought-resistant plants in the California almond groves we source from

We donate over 1,000 gallons of fresh organic milk each week to our Colorado neighbors in need

We believe in coffee that's responsibly grown and harvested. That's why we've planted 2,500 trees at coffee farms in Colombia for shade and healthier soil, along with 4,000 native plants for biodiversity

We are an ongoing champion of the PRIDE movement. To support local LGBTQ youth, we partner with a Denver-based youth homeless shelter to cook community dinners and donate products and needed items
